

The TSCN Sponsor Pledge

Tri-State Specialized Care Network (TSCN) | Read & Click Approval | Click version 1.0 | October 9, 2026 | Based on Sponsor Pledge v1.1 / authorization page v1.2

We are organizations that serve independent private-practice doctors and their patients. We do not provide the care; we support the doctors who do. We stand with TSCN because care is an obligation people owe one another, and independent doctors should not have to build the system for it alone. We make these promises to the membership and to the patients it serves.

What We Support

TSCN is a spine-focused network that connects independent doctors through shared care coordination and disciplined referral pathways, facilitated by secure technology. Its purpose is to move the right patients to the right doctors efficiently while preserving professional independence.

What TSCN Means to a Patient

The patient: Primary Care, Spine Surgery, Pain Management, Physical Therapy, Imaging, Behavioral Care.

The Right Doctor

Each patient is guided to the independent doctor whose skills fit the need, close to home.

Nothing Lost Between Offices

A Care Coordinator moves records, appointments and results from one practice to the next, so every doctor knows what happened and what comes next.

Always the Patient's Choice

Every patient chooses the doctor, inside or outside the membership.

What Sponsors Receive

Recognition

A page on the TSCN website, a listing in the Our Sponsor Supporters flyer sent to member doctors, and recognition at TSCN programs and events.

Education

Opportunities to present useful products and services to members through clearly labeled sessions, demonstrations and roundtables.

Pilots and Feedback

Opt-in introductions to member practices, and structured feedback from pilots that are disclosed and reviewed.

No referrals. No preferential routing. No clinical influence. No patient data.

The Articles of the Sponsor Pledge

These promises are the condition of sponsorship. Each Sponsor affirms them freely.

- I. We believe: Patients come first. We promise: We will never ask that a patient's interest give way to ours.
- II. We believe: Clinical judgment belongs to the doctor. We promise: We will not seek to influence any member doctor's medical decisions, referrals, or choice of product or service.
- III. We believe: The patient chooses. We promise: We will respect every patient's right to choose any doctor, product or service, inside or outside the membership.
- IV. We believe: Sponsorship supports the system, never the referral. We promise: Our support is a fixed fee, set in advance. It does not vary with referrals, purchases, procedures or patient volume, and we expect none of these in return.
- V. We believe: Education must be honest. We promise: What we present to members will be accurate, balanced, consistent with approved labeling and clearly marked as sponsored.
- VI. We believe: Patient information is not ours. We promise: We will not request or receive identifiable patient information through sponsorship.
- VII. We believe: Integrity is not negotiable. We promise: We will never offer anything of value to a member doctor in exchange for a referral, an order or a purchase, and we will follow the laws and reporting rules that govern our dealings with doctors.
- VIII. We believe: The practice remains the doctor's. We promise: We will not use sponsorship to pursue ownership, employment or control of any member practice.
- IX. We believe: What we learn stays within the membership. We promise: We will hold member discussions, network plans and member contact information in confidence, and we will use the TSCN name only as TSCN approves.
- X. We believe: Private practice has a future worth building. We promise: We will help build a better model of independent medicine for doctors and the patients they serve.

Understood by Both

Sponsorship carries no ownership, governance or voting rights in TSCN. Fees are paid to TSCN and never to an individual doctor. Recognition of a Sponsor is not an endorsement of any product or service. TSCN may disclose sponsorships to its members and to regulators. Either party may end the sponsorship by written notice. Both parties intend full compliance with the Anti-Kickback Statute (AKS), the Stark Law and applicable state law.

Sponsor Read & Click Approval

Read the full pledge, then select the approval checkbox in the TSCN Sponsorship Request JotForm and submit your request.

Checkbox wording: "I am authorized to submit this request for my organization. I have read and approve the TSCN Sponsor Pledge - Read & Click Approval v1.0 (October 9, 2026), including its Articles and sponsorship acknowledgments."

Sponsorship acknowledgment

I understand that sponsorship supports the TSCN activity or purpose identified in the sponsorship request and does not constitute payment for patient referrals. Sponsorship confers no right to patient referrals, preferential routing, clinical influence or patient data, and does not vary with referrals, purchases, procedures or patient volume.

Request details and payment

Provide your organization and representative contact details, sponsorship interest and proposed purpose or event in the JotForm request. The sponsorship amount, purpose, payment method and TSCN acceptance are confirmed separately. This click approval does not authorize a credit-card charge. Do not provide card numbers, expiration dates or CVV codes in this request.

Your organization, representative identity and approval are provided in the JotForm. This document has no written-signature field.
